

# SAOPĆENJE PRIOPĆENJE FIRST RELEASE

GODINA / YEAR XV

SARAJEVO, 27.03. 2024.

BROJ/NUMBER: 1.2

## PROIZVODNJA I PRODAJA DRVNIH SORTIMENATA FEBRUAR/VELJAČA 2024. PRODUCTION AND SALE OF FORESTRY ASSORTMENTS FEBRUARY 2024

Ukupna proizvodnja šumskih sortimenata u u periodu I – II 2024. godine u odnosu na isti period 2023. godine veća je za 92.000 m<sup>3</sup> ili 50,4%.

The total production of forest assortments in the period I - II of 2024 compared to the same period of 2023 is higher by 92,000 m<sup>3</sup> or 50.4%.

Proizvodnja sortimenata od četinarara/četinjača je veća za 50.000 m<sup>3</sup> (48,8%), dok je proizvodnja sortimenata od liščara/listača veća za 43.000 m<sup>3</sup> (52,3%).

The production of assortments from conifers is higher by 50,000 m<sup>3</sup> (48.8%), while the production of assortments from broadleaves is higher by 43,000 m<sup>3</sup> (52.3%).

Ukupna prodaja šumskih sortimenata u u periodu I – II 2024. godine u odnosu na isti period 2023. godine veća je za 75.000 m<sup>3</sup> ili 45,1%. Prodaja sortimenata od četinarara/četinjača veća je za 45.000 m<sup>3</sup> (48,2%) dok je prodaja sortimenata od liščara/listača veća za 29.000 m<sup>3</sup> (40,9%).

The total sale of forest assortments in the period I - II of 2024 compared to the same period of 2023 is higher by 75,000 m<sup>3</sup> or 45.1%. The sale of conifer/softwood assortments is higher by 45,000 m<sup>3</sup> (48.2%), while the sale of broadleaves assortments is higher by 29,000 m<sup>3</sup> (40.9%).

000 m<sup>3</sup>

1) Uključuje sitno tehničko drvo, cijepane drvene motke i kolje

1) Including small lumber, shopped wooden poles and stakes

## METODOLOŠKA OBJAŠNENJA

### Izvor i metode prikupljanja podataka

Podaci o proizvodnji, prodaji i zalihama drvnih sortimenata u državnim šumama rezultat su Mjesečnog istraživanja šumarstva ŠUM- 22 koje provodi Federalni zavod za statistiku.

Istraživanje se provodi na osnovu/temelju Zakona o statistici u Federaciji BiH („Sl. Novine FBiH“ br. 63/03 i 9/09).

Mjesečnim izvještajem šumarstva obuhvaćene su sve pravne osobe razvrstane u Registru poslovnih subjekata u području A-Poljoprivreda, lov i šumarstvo, oblast 02-Šumarstvo, sječa drveta i usluge povezane sa njima, a koje se bave stalnom proizvodnjom šumskih sortimenata u državnim šumama.

Prikupljanje podataka o proizvodnji i prodaji u šumarstvu vrši se na osnovi Nomenklature proizvoda i usluga šumarstva – NPUŠ, koja je izrađena za potrebe statistike šumarstva na osnovi Liste karakterističnih proizvoda šumarstva, koju je Eurostat (Statistički ured Evropske unije) objavio kao integralni dio Priručnika za ekonomske račune poljoprivrede i šumarstva (Manual on the Economic Accounts of Agriculture and Forestry – EAF) u novembru/studenom 1997. godine.

### Definicije

**Trupci** (lišćara/listača i četinar/četinjača) su dijelovi debla koji su namijenjeni daljem prerađivanju piljenjem, ponekad rezanjem ili ljuštenjem jer imaju povoljna fizička i kemijska svojstva, te su namijenjeni za industrijsku preradu.

**Jamsko drvo** (lišćara/listača i četinar/četinjača) namijenjeno je za razne tehničke svrhe jer ima vrlo povoljna fizička i kemijska svojstva. To je drvo koje se upotrebljava za izgradnju i održavanje jamskih rovova i okna, dakle za gradnju u zemlji i pod zemljom.

**Ostalo dugo drvo** (lišćara/listača i četinar/četinjača) je tehnička oblovinina za direktnu uporabu/upotrebu, odnosno za korištenje u slobodnoj stojećoj primjeni (stubovi za TT i elektro vodove, šipovi, jarboli i sl.).

**Prostorno drvo** (lišćara/listača i četinar/četinjača) obuhvaća drvo za drvene ploče (pogodno za mehaničku preradu), a celulozno i taninsko drvo, zbog svog povoljnog kemijskog svojstva, pogodno je za kemijsku preradu. Taninsko drvo je sirovina iz koje se preradom dobivaju taninski ekstrakti.

**Ogrijevno drvo** (lišćara/listača i četinar/četinjača) je namijenjeno neposredno za ogrjev ili za proizvodnju drvenog uglja.

**Ostalo grubo obrađeno drvo** (lišćara/listača i četinar/četinjača) obuhvaća sitno tehničko drvo, pogodno za izradu drvenih motki i kolja, raznih letvi i stupova za ogradu, ručica za alat i sl.

Opširnija metodološka objašnjenja za ovo istraživanje objavljena su u „Službenim novinama FBiH“ br. 102/17 i na internet stranici Federalnog zavoda za statistiku

## NOTES OF METHODOLOGY

### Source and methods of data collection

Data on production, sale and stocks of forestry assortments in the public-owned forests are result of monthly reports on surveys of forests (ŠUM – 22) conducted by the Institute for Statistics of Federation of BiH.

This survey is conducted on the bases of Law on Statistical Survey in Federation of B&H ("Official Gazette FB&H" No. 63/03 and 9/09).

All legal entities clasified in the Register of Business Entities under Section A – Agriculture, hunting and forestry Division 02 – Forestry, felling and related services activities, engaged in permanent production forest sortiments in the publicly-owned forests, are extlended by Monthly Report of forestry.

Data collection on production and sales of forestry is practised on the basis of the Nomenclature of Forest Products and Services NPUŠ wich is made for the purposes of forestry statistics on the basis the List of Characteristic Products of the Comercial Timber Production compiled by the Eurostat (the Statistical Office of the Europen Union), and published as an integral part of the Manual for Economic Accounts of Agriculture and Forestry in November 1997.

### Definitions

**Logs** (broad-leavard trees and conifers) are parts of timber intended for further procesing by sawing, sometimes by cutting or peeling, besause of its good physical and chemical characteristics, so it is useful to be industrially processed.

**Mining timber** (broad-leavard trees and conifers) having very good physical and chemical characteristics, is intended for various technical purposes. It is used for bulding and maintaing pits and shafts, therefore, for constructing under ground and on the surface.

**Other long wood** (of broad-leaved trees and conifers) is a technical roundwood for direct use, ie for use in free standing application (poles for TT and power lines, piles, masts, etc.).

**Stack wood** (broad-leavard trees and conifers) includes wood for boards (suitable for mechanical processing), and wood-pulp and tannin wood are, because of its good chemical characteristics, suitable for chemical processing. Tanin wood is a material that, processed, gives tannin extracts.

**Fuel wood** (broad-leavard trees and conifers) is intended directly for fuel or production of wood coal.

**Other roughly processed wood** (broad-leavard trees and conifers) includes paltry technical wood suitable for prosessing of wood poles, diferent bars and fence piers, tool cager etc.

More detailed notes on the Methodology of this survey are published in "Official Gazette FB&H" No. 102/17 and on the web site of the Federal Statistical Office
