Obuhvat

ESSPROS je harmonizovani sistem koji pruža sredstvo analize i usporedbu finansijskih tokova socijalne zaštite. Ciljevi ESSPROS-a jesu pružiti sveobuhvatan opis socijalne zaštite u državama članicama Europske unije i zemljama kandidatima za članstvo u Europskoj uniji, finansiranja socijalnih naknada te stvoriti sistem pogodan za međunarodnu uporedivost i usklađenost s drugim statistikama.

Coverage

The ESSPROS is a harmonised system providing a means of analysing and comparing social protection financial flows. The objectives of the ESSPROS are to provide a comprehensive and coherent description of the social protection in the EU Member States and candidate states for the membership in the European Union, financing of social benefits, and to establish a system suitable for the international comparability and harmonisation with other statistics.

Definicije

Socijalna zaštita obuhvata sve intervencije javnih ili privatnih tijela radi olakšavanja finansijskog opterećenja domaćinstava i pojedinaca od definisanog niza rizika i potreba, pod uslovom da ne postoji istovremena uzajamna ni individualna protivusluga (intervencija koja od primaoca socijalne zaštite istovremeno traži nešto iste vrijednosti).

Definitions

Social protection encompasses all interventions from public or private bodies intended to relieve households and individuals of the burden of a defined set of risks or needs, provided that there is neither a simultaneous reciprocal or an individual arrangement involved (intervention where the recipient of social protection is obliged to provide simultaneously something of equivalent value in exchange).

Rizici ili potrebe u ESSPROS-ovoj metodologiji iskazane su kao funkcije programa socijalne zaštite i prikazane su na sljedeći način:

Risks or needs in the ESSPROS are expressed in this methodology as functions of the social protection scheme and are listed below.

Bolest/zdravstvena zaštita - rizik bolesti obuhvata odražavanje prihoda i novčanu pomoć u vezi s fizičkom ili duševnom bolešću isključujući invaliditet, dok potreba zdravstvene zaštite obuhvata održavanje, vraćanje i poboljšanje zdravlja zaštićenih osoba bez obzira na uzrok poremećaja.

Sickness/Health care – the risk of sickness comprises the maintenance of the income and support in cash in connection with a physical or mental illness, excluding disability. The health care need covers maintenance, restoration or improvement of the health of the people protected, irrespective of the origin of the disorder.

Invaliditet - obuhvata novčane ili nenovčane podrške, osim zdravstvene njege, u vezi sa nemogućnošću fizički ili mentalno hendikepiranih osoba da se bave ekonomskim ili društvenim aktivnostima.

Disability - implies support in cash or kind (except health care) in connection with the inability of physically or mentally disabled people to engage in economic and social activities.

Family/children - implies support in cash or kind (except health care) in connection with the costs of pregnancy, childbirth and adoption, bringing up children and caring for other family members.

Nezaposlenost podrazumijeva održavanje prihoda te novčane ili nenovčane podrške u vezi s nezaposlenošću.

Unemployment implies income maintenance and support in cash or kind in connection with unemployment.

Stanovanje obuhvaća pomoć u podmiranju troškova stanovanja.

Housing includes assistance in settling of housing cost.

Socijalna isključenost koja nije drugdje klasificirana obuhvaća novčane ili nenovčane potpore, osim zdravstvene zaštite, koje su specifično namijenjene suzbijanju socijalne isključenosti kada ona nije pokrivena ostalim funkcijama.

Social exclusion not elsewhere classified covers benefits in cash or kind (except health care) specifically intended to combat social exclusion where it is not covered by one of the other functions.

Funkcija socijalne zaštite se odnosi na primarnu svrhu za koju se pruža socijalna zaštita, bez obzira na zakonske ili institucionalne odredbe.

Function of social protection refers to the primary purpose for which social protection is provided, irrespective of legislative or institutional provisions.

Jedinica posmatranja je program socijalne zaštite. Prema definiciji program socijalne zaštite je skup pravila koja podržavaju jedna ili više institucionalnih jedinica, koji upravlja pružanjem socijalnih naknada i njihovim finansiranjem. Program socijalne zaštite bi u svakom trenutku trebao zadovoljavati uslov da je za njega moguće prikazati odvojen račun primitaka i izdataka. Po mogućnosti, programi socijalne zaštite strukturiraju se tako da pružaju zaštitu od jednog rizika ili jedne potrebe i pokrivaju jednu specifičnu skupinu korisnika. Program socijalne zaštite ima istu rezidentnost kao i institucionalna jedinica koja njime upravlja.

Observation unit is the social protection scheme. According to the definition, social protection scheme is a distinct body of rules, supported by one or more institutional units, governing the provision of social protection benefits and their financing. Social protection schemes should at all times meet the condition that it must be possible to draw up a separate account of receipts and expenditures. Preferably, social protection schemes are structured in such a way that they provide protection against a single risk or need and cover a single specific group of beneficiaries. Social protection schemes have the same residence as the institutional units that manage them.

Izdaci programa socijalne zaštite se klasifikuju prema vrsti, što upućuje na prirodu ili razlog za izdatak. Vrste izdataka su: naknade socijalne zaštite, administrativni troškovi, transferi prema drugim programima, te ostali izdaci.

Expenditures of social protection schemes are classified by type, which indicates the nature of, or reason for, the expenditure. The types of expenditures are the following: social benefits, administration costs, transfers to other schemes and other expenditure.

Naknade socijalne zaštite kao najveći izdatak programa socijalne zaštite, novčani su ili nenovčani transferi usmjereni od programa socijalne zaštite prema domaćinstvima ili pojedincima kako bi ih rasteretili finansijskog opterećenja od definisanog seta rizika i potreba. Naknade socijalne zaštite dijele se na naknade koje se dodjeljuju bez provjere materijalnog stanja i naknade socijalne zaštite temeljene na provjeri materijalnog stanja. Naknade socijalne zaštite mogu imati oblik novčanih isplata, nadoknade troškova te direktno pruženih roba i usluga.

Social benefits, as the most extensive social protection expenditure, consist of transfers, in cash or in kind, by social protection schemes to household or individuals to relieve them of the burden of a defined set of risks or needs. Social benefits are broken down in non means-tested and means-tested benefits. Social benefits refer exclusively to cash payments, reimbursements and directly provided goods and services.

Administrativni troškovi su troškovi koji se uračunavaju programu za njegovo upravljanje i vođenje.

Administration costs means the costs charged to the scheme for management and administration thereof.

Transferi preusmjereni na druge programe su nepovratne isplate drugim programima socijalne zaštite.

Transfers to other schemes means unrequited payments made to other social protection schemes.

Socijalni doprinosi preusmjereni između programa su isplate jednog programa socijalne zaštite drugom radi održavanja ili povećanja prava zaštićenih lica za socijalnu zaštitu od programa primaoca.

Re-routed social contributions are payments that a social protection scheme makes to another scheme in order to maintain or accrue the rights of its protected people to social protection from the recipient scheme.

Ostali izdaci su raznoliki izdaci programa socijalne zaštite.

Other expenditure means miscellaneous expenditure by social protection schemes.

Primici programa socijalne zaštite klasifikuju se u okviru Centralnog ESSPROS-ovog sistema prema vrsti i porijeklu. Vrsta se odnosi na prirodu uplate ili razlog uplate, a porijeklo na institucionalni sektor iz kojeg je isplata primljena. Vrste primitaka su: socijalni doprinosi, doprinosi Vlade Federacije BiH, doprinosi vlada na kantonalnim nivoima Federacija BiH, transferi iz drugih programa, te ostali primici. Prema sektoru porijekla razlikujemo primitke od: preduzeća, opšte vladine, domaćinstava, neprofitnih ustanova i ostatka svijeta.

Receipts of social protection schemes are classified in the ESSPROS Core System by type and origin.
